VANISHED DR MOSLEY: DID A WRONG TURN LEAD TO DISASTER?

RESCUERS hunting Mail columnist Michael Mosley were last night focusing on a treacherous mountain path.

After a day that saw divers,

coastguards and fishermen scouring the sea, the search for the renowned health writer shifted back to land.

Greek police are now working on the assumption that the 67-year-old diet guru took a disastrous wrong turn as he walked back to his friends' home on the tiny holiday island of Symi.

One rescuer last night said the search was becoming a 'race' **Turn to Page 5**
