A senior UAE official said yesterday that the Arab world is paying the price for what he described as Iran's expansive regional ambitions, warning that security, stability and prosperity cannot be achieved through policies that undermine the sovereignty of neighbouring states.

In a post on X, Dr Anwar Gargash, Diplomatic Adviser to the UAE President, said instability stretching from the Arabian Gulf to Yemen, Lebanon and Iraq reflected the consequences of Tehran's regional policies.

"From the Arabian Gulf to Yemen, Lebanon and Iraq, we are all paying the price of Iran's inflated regional ambitions. The role of any country in the region cannot be at the expense of security, stability and shared prosperity," Gargash said.

He called for a reassessment of regional relations based on sovereignty, good neighbourliness and non-interference.

His remarks came as US President Donald Trump said talks with Iran were continuing at a "rapid pace", even as renewed fighting in Lebanon threatened to complicate efforts to end the war and reopen the Strait of Hormuz.

Iran's Tasnim news agency reported that Tehran had suspended "dialogues and exchange of texts through mediators" following Israel's expanding military campaign in Lebanon.

Israel intensified air and ground operations in the country's south and again threatened strikes on Beirut's southern suburbs.

Strikes near hospital

Lebanon's Health Ministry said Israeli strikes near Jabal Amel Hospital in the southern city of Tyre killed four people and wounded 127, including 39 hospital staff. The ministry said four doctors, 27 nurses and eight administrative employees were among the injured, with four in critical condition.

The World Health Organisation said the strike inflicted significant damage on the hospital.

Israeli Prime Minister Benjamin Netanyahu said operations

ARAB REGION PAYING THE PRICE FOR IRAN'S EXPANSIVE AMBITIONS: UAE

Iran insists Lebanon ceasefire is key to any wider agreement

■ A doctor gestures at a damaged laboratory of Jabal Amel Hospital, following Monday's Israeli airstrike that hit a nearby building, in the southern port city of Tyre, Lebanon, yesterday.

in southern Lebanon would continue "as planned", despite Trump earlier expressing confidence that Israel would not move into Beirut.

Netanyahu said he had informed Trump that Israel would strike Beirut if Hezbollah continued attacks on Israel.

Israeli military spokesman Avichay Adraee urged residents in parts of Nabatieh to evacuate north of the Zahrani River, saying the army was preparing operations against Hezbollah positions.

Hezbollah later said it had targeted an Israeli tank in the area. The escalation came despite diplomatic efforts to secure a mutual cessation of attacks. Lebanon's embassy in Washington said Hezbollah had accepted a US proposal under which both sides would halt attacks, while Trump later said he had persuaded Israel and the Iran-backed group to step back from a broader confrontation.

Iran maintained that no substantive nuclear negotiations

were taking place and insisted that Israel's Lebanon offensive must stop before any wider agreement could be reached.

Renewed conflict

A senior Iranian military commander also cast doubt on prospects for diplomacy, warning that renewed conflict with the United States was inevitable.

"The United States demands our total surrender, and the Iranian nation will never surrender," Mohammad Jafar Assadi,

deputy head of Iran's Khatam Al-Anbiya central military command, said. "Without surrender, war is inevitable."

Meanwhile, Iran announced plans for a three-day state funeral for former supreme leader Ali Khamenei, who was killed in US-Israeli strikes on February 28.

Tehran Deputy Mayor Mohammad Amin Tavakolizadeh said ceremonies would be held in Tehran, Qom and Mashhad, where Khamenei will be buried.

Kerala boy heads to World Cup with Qatar

Tahsin Mohammed Jamshid, whose family roots trace back to Kannur, eyes historic debut

DUBAI

BY SHAMSEER MOHAMMED
Staff Writer

When the Fifa World Cup arrives, Kerala transforms.

Flags of Argentina, Brazil, Portugal, England, France and several other nations line the streets. Giant cutouts of football stars rise above junctions and open grounds, turning entire neighbourhoods into World Cup arenas.

That's what makes Kerala unique. Football is more than a sport here. It is a festival.

And now, there is an extra reason for Malayalis to be excited.

While India remains some distance away from qualifying for the World Cup, a boy with roots in Kerala is set to experience football's biggest stage in the colours of Qatar.

When Qatar head coach Julen Lopetegui announced his 26-man squad for the 2026 Fifa World Cup, one name stood out for football fans in Kerala.

Nineteen-year-old Tahsin Mohammed Jamshid, whose family roots trace back to Kannur, was named in Qatar's squad for the tournament in the United States, Can-

ada and Mexico. If he takes the field, Tahsin will become the first footballer with Kerala roots and the first player of Indian origin to play at a Fifa World Cup.

Tahsin was born and raised in Doha to parents from Kerala. His father Jamshid hails from Thalassery, while his mother Shyma is from Valapattanam in Kannur district. The family moved to Qatar in 1996, and Tahsin grew up immersed in the country's football culture. Holding Qatari citizenship, he developed through the renowned Aspire Academy, which has produced several stars of Qatar's national team.

Tahsin progressed through Qatar's

youth teams, representing the nation at U17 and U19 levels and even finding the net for the U17 side.

Making history

He later made history by becoming the first footballer of Indian origin to play in the Qatar Stars League, the country's top division, with Al Duhail.

A winger known for his pace, dribbling and ability to take on defenders, he primarily operates on the left flank and is regarded as one of Qatar's exciting young prospects.

His senior international debut came in a World Cup qualifier against Afghanistan. He was also named in the squad for Qatar's match against India before returning for the final qualifying matches that ultimately secured Qatar's place at the World Cup. Even with limited minutes on the field, being part of Qatar's senior squad is a major milestone for Tahsin.

Whether the 19-year-old gets minutes on the pitch is something only time will tell. But simply being part of a World Cup squad at such a young age is a remarkable achievement and a proud moment for football fans from Kerala around the world.

Abu Dhabi freezes increase in rent on all lease contracts

Landlords cannot raise rents on new or renewed leases for now: ADREC

ABU DHABI

BY ABDULLA RASHEED
Abu Dhabi Editor

Abu Dhabi tenants will not face rent increases for now after the Abu Dhabi Real Estate Centre (ADREC) suspended all rental hikes on lease contracts until further notice. The decision applies to both new leases and renewals, with approved rental values required to remain at the same level stated in the previous contract.

ADREC said landlords and property management companies cannot impose rent increases while the suspension remains in effect. The move comes as Abu Dhabi's property

market continues to expand, supported by strong demand for residential and commercial properties and growing local and international investment.

The measure is expected to provide greater financial certainty for residents, families and businesses by keeping one of their largest recurring expenses stable. Industry observers say the rent freeze could also help ease broader cost-of-living pressures, as housing costs remain a major component of household and business spending.

The decision reinforces ADREC's role in maintaining balance between landlords and tenants while supporting long-term market sustainability. Regulators are expected to continue monitoring supply, demand and rental trends before deciding whether any future changes to the policy are required.
