Arab League chief slams Trump Gaza plan

ARAB WORLD REJECTS DISPLACEMENT OF PALESTINIANS, HE SAYS AND CALLS IT 'UNACCEPTABLE'

DUBAI

Arab League Secretary-General Ahmad Aboul Gheit yesterday firmly rejected any displacement of Palestinians from Gaza and the West Bank, calling it an unacceptable move aimed at erasing Palestine.

"The focus is on Gaza today, and tomorrow it will shift to the West Bank, with the goal of emptying Palestine of its historical inhabitants," he warned at the World Governments Summit in Dubai. "This is unacceptable for the Arab world, which has resisted this idea for 100 years."

His remarks came in response to former US President Donald Trump's proposal to relocate Palestinians out of Gaza, a plan that has sparked widespread outrage in the Arab world.

"After a century of resistance, we Arabs will not capitulate now, because we have not suffered a political, military, or cultural defeat," Aboul Gheit declared.

dan's King Abdullah II in Washington, Egyptian President Abdul Fattah Al Sissi and the Jordanian monarch reaffirmed their

unified stance on Gaza, rejecting any forced displacement.

"The Egyptian and Jordanian positions remain aligned: The

ceasefire must be fully implemented, hostages and prisoners exchanged, and humanitarian aid allowed in," read a statement

from Cairo. The two leaders also called for the immediate reconstruction of Gaza without displacing its people.

Despite widespread condemnation, Trump on Tuesday doubled down on his proposal to exile Palestinians and place Gaza under US authority, facing strong resistance from the Jordanian king.

Backing off

He however backed off his threat to withhold US aid for Jordan after King Abdullah II agreed during a White House meeting to accept 2,000 ill children from Gaza.

King Abdullah II said he would discuss the future of the territory at an upcoming meeting in Saudi Arabia once Egypt presents its proposal.

Meanwhile, Hamas vowed it would not bow to Israeli and US pressure, rejecting demands to release hostages by the weekend or face renewed war. Qatar and Egypt are mediating to salvage the fragile ceasefire, which, after 42 days, is under increasing strain.
