Dh26b in millionaire wealth heads to Dubai

DUBAI
BY JUSTIN VARGHESE

Dubai is on the cusp of a record influx of wealth in 2025, with as many as 7,100 new millionaires expected to relocate to the city, bringing over \$7 billion (Dh26 billion) in fresh capital.

That figure alone could rival nearly half of Dubai's total foreign direct investment from last year — underscoring the emirate's growing status as a magnet for global wealth.

A new report by Betterhomes reveals that Dubai is no longer viewed as a temporary luxury outpost but as a permanent base for the world's elite. The appeal? A potent mix of safety, tax efficiency, and world-class connectivity.

In 2024, the UAE welcomed 6,700 new millionaires. If just 5 per cent of the projected 142,000 high-net-worth individuals expected to migrate globally in 2025 choose Dubai, the impact could be transformative — economically and socially.

"I want to make a deal with Iran. I want to do something, if it's possible," Trump told a summit of Gulf Arab leaders in Riyadh.

"But for that to happen, it must stop sponsoring terror, halt its bloody proxy wars, and permanently and verifiably cease its pursuit of nuclear weapons. I'm strongly urging all nations to join us in fully and totally enforcing the sanctions that I just placed on Iran," he said.
