THE Liverpool victory parade turned to horror yesterday when a car ploughed into fans celebrating their team's Premier League title win.

The vehicle sped into the packed city centre just after 6pm, smashing into the crowd. The ambulance service said 47 people were injured, with 27 taken to hospital. Four children were among the injured, one of them seriously.

Shocking video footage captured the moment the car turned into Water Street, with the driver beeping the horn as he revved backwards and forwards in the crowd. Fans tried to stop the vehicle and pulled the door
