## DXB parking fees via Salik E-Wallet

**DUBAI**  
BY CHRISTIAN BORBON  
Senior Web Editor

Starting January 22, parking fees at all terminals of Dubai International Airport (DXB) will be deducted from a driver's existing Salik account upon exiting the airport.

This follows a 10-year agreement signed between Dubai Airports and Salik, allowing DXB to introduce a ticketless parking payment system across all terminals.

The technology will be deployed across 7,400 parking spaces at Terminals 1, 2, 3, and the Cargo Mega Terminal.

Under the new arrangement, the toll-gate operator will integrate its digital payment system with existing car park management infrastructure. The move is designed to eliminate the need for physical tickets or manual payments at kiosks.

While the E-Wallet will become a primary payment method, Dubai Airports confirmed that multiple payment channels will remain available to ensure all visitors can access the facilities.

## UAE assesses 25% US tariffs on Iran and risks to trade

TRADE, FOOD SUPPLY AND CONSUMER PRICES UNDER REVIEW, MINISTER SAYS

### ABU DHABI

BY NIVETHA DAYANAND  
Assistant Business Editor

The UAE is assessing the impact of US' new Iran tariffs, even as the country presses ahead with an aggressive push to expand trade ties across Africa, Asia and Latin America, Dr Thani Al Zeyoudi, Minister of Foreign Trade, Government of the UAE, said yesterday.

Speaking at Abu Dhabi Sustainability Week, Al Zeyoudi said details of US President Donald Trump's announcement of a 25 per cent tariff on countries doing business with Iran remain unclear, but the implications could be significant for regional supply chains. "Everyone woke up today with the announcements by President Trump on the 25 per cent additional duties," he said. "The details of the announcement are still not clear, which we're trying to explore and investigate further."

Iran is the UAE's second-larg-

## 2,000 DEAD IN IRAN

The death toll from nationwide protests in Iran spiked yesterday to at least 2,000, an official said, even as Iranians made phone calls abroad for the first time in days after authorities severed communications during a crackdown.

— AP

est trading partner after China and a key supplier of food and essential commodities. Al Zeyoudi said any disruption would need to be carefully weighed against its effect on prices, availability and regional stability.

"We have to evaluate what are the consequences of disturbing the supply of many of the products and commodities that come from Iran," he said. "Iran is our neighbour, and we have to make sure we're providing the right commodities to their people."
