Passport cover page must for UAE entry permit

DUBAI
BY ZAINAB HUSAIN
Features Writer

Applicants for UAE entry permits are now required to submit a copy of their passport's external cover page, according to Amer Centres in Dubai and typing centres in both Dubai and Abu Dhabi.

Staff at these centres told *Gulf News* they had received a circular from immigration departments this month introducing the new requirement.

The notice stated: "Passport external page has been added as a mandatory document for all entry permit applications. This requirement applies to all nationalities and all visa types and affects the following application types – new entry permit."

Gulf News has contacted the Federal Authority for Identity, Citizenship, Customs and Port Security (ICP) and the General Directorate for Identity and Foreigners Affairs in Dubai (GDRFA Dubai) for an official comment.

Trump lays out '21-point plan' to end Gaza war

ARAB LEADERS BACK PARTS OF IT; SEEK CHANGES ON JERUSALEM, SETTLEMENTS

DUBAI
BY STEPHEN N. R.
Senior Associate Editor

US President Donald Trump has proposed a "21-point plan" to end the Gaza war, presenting it to Arab and Muslim leaders in New York this week, according to multiple media reports.

The proposal triggered detailed discussions on how to shape a final roadmap that could bring an end to one of the region's deadliest conflicts in decades.

US Special Envoy Steve Witkoff, speaking at the Concordia Summit on the sidelines of the UN General Assembly, said Trump's blueprint addressed both Israeli concerns and the priorities of regional states. "We're hopeful, and I might say even confident, that in the coming days we'll be able to announce some sort of breakthrough," Witkoff said.

'Super useful' meeting

"The meeting was super useful," one regional diplomat told reporters, noting that leaders highlighted conditions they considered essential for any final deal.

A joint statement issued after the talks underscored the leaders' "commitment to cooperate with President Trump" and their recognition of his leadership role in pushing for peace.

But Israeli Prime Minister Benjamin Netanyahu again dismissed the broader international moves toward Palestinian recognition.

AFP

THE US FRAMEWORK INCLUDES:

- Release of all hostages held by Hamas
- A permanent ceasefire
- A governance model for Gaza without Hamas
- A phased Israeli withdrawal from the Gaza Strip

Arab and Muslim leaders reportedly welcomed much of the proposal but called for additional provisions, including:

- No annexation of the West Bank
- Maintaining the current status quo for Jerusalem
- Addressing illegal settlements
- Ensuring increased humanitarian aid for Gaza

— S.N.R.

The discussions followed a recent Israeli strike in Doha that killed Hamas operatives and derailed ongoing mediation. Qatar offered to continue facilitating

negotiations but demanded assurances against future Israeli attacks on its territory.

Meanwhile, Palestinian leader Mahmoud Abbas yesterday rejected any future role for Hamas and condemned antisemitism, as he appealed for full global support for a state in the face of Israeli annexation threats. Days after France led a special summit and several Western powers recognised a state of Palestine, the veteran 89-year-old leader was forced to address the UN General Assembly by video after the US took the unusual step of denying him a visa to come to New York.

US Secretary of State Marco Rubio, who has injected urgency into the process, joined follow-up meetings with Arab leaders on Wednesday. "Very important work is ongoing, even as we speak, with regard to a future for Gaza and the Palestinian people," Rubio said.
