MOHAMED, VUCIC DISCUSS STRENGTHENING OF ECONOMIC TIES

President His Highness Sheikh Mohamed Bin Zayed Al Nahyan is received by Aleksandar Vucic, President of Serbia, upon arriving at Belgrade Nikola Tesla Airport. The leaders discussed bilateral cooperation, particularly in the fields of economy, investment, trade, and renewable energy, as well as other priority sectors, under the Comprehensive Strategic Partnership and Comprehensive Economic Partnership between the UAE and Serbia. Sheikh Mohamed directed that scholarships be offered to Serbian students to study at UAE universities across a range of disciplines, with a focus on science, technology, and artificial intelligence. Sheikh Mohamed also visited the Expo 2027 Playground in Belgrade, the interactive multimedia centre for Expo 2027, which Serbia will host next year.

US, Iran fire missiles amid all-out war risk

UAE condemns attacks on Kuwait, Jordan, Saudi Arabia

DUBAI

Gulf News Report

The United States and Iran each fired barrages of missiles yesterday, as the pattern of back-and-forth strikes took hold again and hope dimmed for any quick resolution.

After a brief respite, the risk of a return to all-out war emerged once more, with the fighting

threatening to engulf even more countries.

More countries targeted

Jordan said it intercepted Iranian missiles for the second consecutive day, while Kuwait said a strike in the northern part of the country killed one person. Also this week, drones caused fires on ships at an Egyptian port, and Saudi Arabia said it came under fire from Iran-backed militias in Iraq.

The UAE condemned the attacks on Saudi Arabia, Kuwait and Jordan in the strongest terms.

The spiralling violence underscored the difficulty of winding down a five-month conflict that has sent the price of fuel and other basics soaring, jolted the world economy, and added to concerns about American stockpiles of weapons needed to defend its bases and allies. After an earlier hiatus had given hope that diplomatic efforts were moving forward, there was no public sign of progress.

Mediator Pakistan, however, insisted that negotiations between Iran and the United States were ongoing.

Dubai sees 7.5% population rise in just a year

OVER 1.812M PEOPLE TEMPORARILY PRESENT IN DUBAI ON AN AVERAGE DAY

DUBAI

BY ASHFAQ AHMED
Managing Editor

Dubai's resident population now stands at 4.58 million, marking one of the fastest annual increases in the emirate's history, while the number of people physically present in the emirate during peak daytime hours climbs to 6.392 million, driven by workers, tourists, students, shoppers and other short-term visitors.

More than 1.812 million people are temporarily present in Dubai on an average day, highlighting the enormous demand placed on roads, public transport, utilities, health care and other essential services.

Digital Dubai announced that the emirate's resident population saw an increase of approximately 332,000 people over the previous year, representing a 7.5 per cent growth rate. The figures are generated using administrative records, smart government systems and advanced digital technologies rather than conventional census surveys.

'Dubai Population Now'

Approved by Sheikh Hamdan Bin Mohammed Bin Rashid Al Maktoum, Crown Prince of Dubai, Deputy Prime Minister and Minister of Defence of the UAE and Dubai Executive Council Chairman, the 'Dubai

number of people physically present in the emirate during peak daytime hours

Population Now' initiative replaces the traditional census with a continuously updated digital system, enabling authorities to track demographic changes in real time and make faster, data-driven decisions.

The emirate recorded 5.4 per cent GDP growth in 2025, welcomed 19.6 million international tourists, up 5 per cent, while Dubai Airports handled around 96 million passengers, an increase of 4.9 per cent over the previous year.

Younus Al Nasser, Chief Executive Officer of the Dubai Data and Statistics Establishment, said the population growth reflects the expansion of the labour market, rising demand for services and continuous improvements in quality of life.
