GARGASH DISMISSES AS FALSE CLAIMS ABOUT UAE OVER IRAN

Rumours about visas, financial facilities rejected

DUBAI
BY STEPHEN N. R.
Senior Associate Editor

Dr Anwar Gargash has dismissed claims that the UAE is cancelling workers' residency visas or providing financial facilities to Iran, describing the reports as false and part of "desperate media campaigns".

The Diplomatic Adviser to the UAE President said in a post on X yesterday that the country remained focused on dealing with regional developments and preparing for the next phase.

"Some targeted platforms are circulating false information about the UAE, while the country continues to focus its efforts on dealing with developments in the region and preparing for the next phase," Gargash wrote.

UAE's approach

He said the UAE's approach was to respond to such claims through work and tangible achievements on the ground.

Gargash specifically addressed two rumours — the alleged cancellation of workers'

residency visas and claims that the UAE was providing financial facilities to Iran.

Both were untrue, he said. "As for the rumours being circulated, such as those concerning the cancellation of workers' residency visas or the provision of financial facilities to Iran and others, they are incorrect and part of desperate media campaigns," he wrote.

He concluded by stressing that results were the strongest response to misinformation.

"Facts and tangible achievements remain stronger than rumours, and work remains stronger than noise," he said.

The comments come after the UAE ordered a halt to all activities, trade exchanges and

financial transactions with Iran until further notice. The directive covers activities and commercial exchanges with Iran, as well as financial transactions.

Important measure

Afra Al Hameli, Director of Strategic Communications at the Ministry of Foreign Affairs, said the measure was being taken in light of regional escalation that threatened regional and international peace and security.

She also reaffirmed the UAE's commitment to safeguarding the integrity of the international financial system in accordance with international law and the highest global standards.

The developments come after Iran on Tuesday fired two ballistic missiles at shipping, both of which fell into the sea, including one within UAE territorial waters. Tankers belonging to UAE state-owned oil company Adnoc have also been repeatedly targeted in recent weeks.

As part of its efforts to maintain a stranglehold over the Strait of Hormuz, Iran has regularly attacked ships attempting to use the waterway.
