Faster security check at DXB soon

DUBAI
BY DHANUSHA GOKULAN
Chief Reporter

Good news for travellers flying through Dubai International Airport (DXB)! Getting through security is set to become much smoother and quicker, thanks to a major upgrade in screening technology installed across all terminals.

Dubai Aviation Engineering Projects (DAEP) has officially awarded a contract to Smiths Detection to deploy state-of-the-art checkpoint scanners throughout Terminals 1, 2, and 3, the agency responsible for the design, master-planning, infrastructure development and construction of Dubai's aviation sector said.

The rollout, starting soon, will see the installation of advanced HI-SCAN 6040 CTIX Model-S computed-tomography (CT) scanners.

The biggest change is that you will no longer need to remove electronics like laptops or liquids from your carry-on bags at the security checkpoint.

Truce talks set to collapse as Israel wages 'hunger war'

GAZA WILL BE ENTIRELY DESTROYED, MINISTER SAYS AMID EXPANDED ASSAULT

GAZA

Hamas yesterday dismissed as pointless ceasefire talks with Israel, accusing it of waging a "hunger war" on Gaza, where famine looms, as the Israeli military prepared for a broader assault.

The comments from Hamas political bureau member Basem Naim followed Israel's approval of a military plan involving the long-term "conquest of the Gaza Strip", according to an Israeli official.

"There is no sense in engaging in talks or considering new ceasefire proposals as long as the hunger war and extermination war continue in the Gaza Strip," senior Hamas official Naim told AFP.

Israel's Finance Minister Bezalel Smotrich said yesterday a victory for Israel in Gaza means that the Palestinian territory will be "entirely destroyed" before its inhabitants depart for other countries.

"Gaza will be entirely destroyed, civilians will be sent to... the south to a humanitarian

Displaced Palestinians scuffle for a portion of hot food at a charity kitchen at the Nuseirat refugee camp in the central Gaza Strip on Monday.

zone without Hamas or terrorism, and from there they will start to leave in great numbers to third countries," the far-right firebrand said at a conference in the occupied West Bank.

The UN and aid organisations have repeatedly warned of the humanitarian catastrophe in Gaza, exacerbated by the total blockade since early March, heightening fears of famine.

Meanwhile, Qatar, a key mediator in the conflict, said that "our efforts remain ongoing" despite major obstacles to a ceasefire.

Petal Ads Joins ATM 2025 to Empower Tourism Marketing with Cutting-Edge AI Solutions

Petal Ads, Huawei's innovative mobile-first digital advertising platform, successfully showcased its AI-driven marketing solutions at the Arabian Travel Market (ATM) 2025, which took place from April 28 to May 1 at the Dubai World Trade Centre.

In a collaborative effort with the China Cultural Center in the UAE, Petal Ads highlighted how the latest advancements in AI and cross-device ecosystem technology are transforming tourism marketing strategies, with a focus on connecting businesses with the growing Chinese travel market.

Under the slogan "Empower Tourism Marketing Through Cutting-Edge AI Solutions", the stand visitors explored the transformative potential of AI-powered marketing solutions. By offering precise targeting capabilities, Petal Ads enabled local businesses to effectively reach the lucrative Chinese market, delivering highly personalized content tailored to Chinese travelers' preferences.

This collaboration with the China Cultural Center in the UAE underscored a shared commitment to promoting China's top tourist destinations through the "Nihao China!" campaign, fostering cultural exchange, and inspiring global travel.

Notably, the Department of Culture and Tourism of Guangdong Province, Shanghai Municipal Administration of Culture and Tourism, and Xi'an Municipal Administration of Culture and Tourism were all present at the booth, further emphasizing the importance of cross-regional collaboration in advancing tourism marketing efforts.

Renewing Key Partnerships

As part of Huawei's ongoing commitment to the growth of sustainable tourism, MOU agreements were signed during the event with Emirates, Visit Qatar, the Royal Commission for AlUla, and the Ras Al Khaimah Tourism Development Authority (RAKTDA). These MOUs reflect a shared vision to drive sustainable tourism growth by leveraging Huawei's ecosystem and marketing platforms. The aim is to enhance the tourism experience and stimulate high-value travel demand by connecting the Middle East's key tourism destinations to China's vibrant travel market.

Sustainable Tourism Reimagined: A Global Perspective on AI's Role

Petal Ads delivered an engaging and insightful keynote at ATM's Future Stage, diving deep into Petal Ads marketing solutions and the transformative impact of AI on personalizing travel experiences. Following the keynote, Petal Ads participated in a panel discussion on "A New Paradigm of Sustainable Tourism from a Global Perspective." The session highlighted how AI and data science are driving sustainable tourism by balancing cultural heritage preservation with growing travel demand. Panelists discussed the importance of local community involvement, emerging technologies like AI, and global partnerships in fostering sustainable tourism practices.
