2024 most successful year in UAE history: Mohammad

FOREIGN TRADE SURPASSED DH2.8 TRILLION FOR THE FIRST TIME

ABU DHABI

BY KHITAM AL AMIR
Chief News Editor

Since the founding of the UAE, 2024 marked the most successful year in the country's economic and developmental journey, said His Highness Shaikh Mohammad Bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, yesterday.

Chairing the first Cabinet meeting of the year, Shaikh Mohammad said, "Our nation has bolstered its global presence under the leadership of my brother, the President of the UAE. Over 140 international agreements were signed in 2024 across diverse sectors, including the economy, clean energy, technology, artificial intelligence, security, and international humanitarian work among others."

New benchmark

Shedding light on the achievements of 2024, Shaikh Mohammad said, "2024 witnessed remarkable economic achievements: the number of new companies surged to 200,000, foreign trade surpassed Dh2.8 trillion for the first time, and foreign direct investment (FDI) is projected to reach a historic Dh130 billion. Additionally, the value of the UAE's industrial exports reached Dh190 billion for the first time, setting a new benchmark in the country's economic performance."

value of industrial exports reached for the first time in 2024

In the same year, 150 million passengers passed through the UAE's airports, and over 30 million guests were welcomed by the country's tourism facilities. Additionally, young Emirati entrepreneurs launched 25,000 small and medium enterprises, integrating them into the national economic cycle.

The number of Emiratis working in the private sector saw a remarkable 350 per cent increase, reaching 131,000 for the first time, driven by the success of the National Nafis Programme. The UAE Cabinet also introduced over 750 national projects and initiatives aimed at advancing development and attracting top talents, competencies, and investments to the country.

Dubai rent to go up for top-rated buildings

DUBAI

BY MANOJ NAIR
Business Editor

A new digital rental index tied to a 'star rating' system for buildings came into effect yesterday, in a move to improve transparency in the rental market and reduce conflicts on rental issues.

Rent increases for tenants will now be based on the building's rating, promoting fairness by aligning rents with property conditions and location. Unlike the previous zone-based index, this system evaluates individual buildings and updates frequently.

The ratings currently apply to buildings, not individual units, but this could change. Landlords of lower-rated buildings can upgrade their properties to improve ratings.

Covering freehold and non-freehold residential properties, the system excludes non-residential properties The Dubai Land Department (DLD) expects the new index to reduce rental disputes by 20 per cent or more. With over 900,000 rental contracts signed in 2024, this AI-driven system ensures accuracy and transparency, encouraging landlords to enhance building quality for competitive rents.
