Budget blow for Indian expatriates

DUBAI

BY SAJILA SASEENDRAN
Chief Reporter

Indian expatriates in the UAE have expressed disappointment after India's Union Budget 2025 failed to address their demand for tax parity for Non-Resident Indians (NRIs) on capital gains from property sales. Despite last-minute lobbying efforts, the budget made no mention of granting NRIs the same tax options as resident Indians.

Hope on debate

Community groups, who sent multiple appeals to the Finance Ministry, are now relying on parliamentary debates starting today. Some parliamentarians from Kerala have pledged support.

"We trust they will advocate for us during the budget debate as well," Nissar Thalangara, president of Indian Association Sharjah, told *Gulf News*.

Trade war looms as US slaps tariffs on key partners

CANADA, MEXICO, CHINA VOW TO RETALIATE WITH TIT-FOR-TAT MOVES

WASHINGTON

President Donald Trump announced broad tariffs Saturday on major US trading partners Canada, Mexico and China, invoking emergency economic powers to do so while citing a "major threat" from illegal immigration and drugs.

Canadian and Mexican exports to the United States will face a 25 per cent tariff, although energy resources from Canada will have a lower 10 per cent levy, with duties starting as soon as tomorrow.

Goods from China, which already face various rates of duties, will see an additional 10 per cent tariff, said Trump.

He invoked the International Emergency Economic Powers Act in imposing the tariffs, with the White House saying "the extraordinary threat posed by illegal aliens and drugs, including deadly fentanyl, constitutes a national emergency."

Threatening upheaval

The aim is to hold all three countries "accountable to their promises of halting illegal immigration and stopping poisonous fentanyl and other drugs from flowing into our country," the White House added.

Washington additionally accused Mexico's government of having an "intolerable alliance" with drug trafficking groups.

The announcement threatens upheaval across supply chains, from energy to automobiles to food. Canada, Mexico and China have all said they will retaliate against tariffs imposed by Trump with tariffs and other measures of its own. — *AFP*
