Labour promised to slash prices, but families are now facing
THREE hikes in succession — with a new one taking effect TODAY

SO MUCH FOR CUTTING OUR ENERGY BILLS!

By **John-Paul Ford Rojas** and **Harriet Line**

MILLIONS of households facing an energy bill hike today have been told to prepare for a further rise in the spring.

The increase in the energy price cap will take the typical annual bill to £1,738.

And the latest forecast suggests it will rise to £1,785 from April 1. This would be the third hike

in a row and mean a £217 increase since Labour took power in July — leaving the Government at risk of breaking an election pledge to bring down the cost of energy bills.

It comes as Keir Starmer used his New Year message to vow to put 'more cash in your pocket'.

In gloomy comments, the Prime Minister said he
