Holiday rush to see 3 million flyers at DXB

DUBAI
BY DHANUSHA GOKULAN
Chief Reporter

Dubai International Airport has said it is preparing for one of its busiest summer travel periods, with thousands of residents expected to depart for holidays as the peak travel season begins this week.

Around three million passengers are expected to pass through DXB terminals during the first half of July, with the summer surge beginning today as residents head overseas for their breaks. The busiest day is expected on July 12, when more than 225,000 guests are forecast to travel through the airport.

Daily passenger numbers are expected to regularly exceed 200,000 during the peak period, with transfer passengers accounting for around half of total traffic, highlighting Dubai's role as a major global aviation hub.

Airlines across the UAE are also increasing capacity to meet summer demand. Dubai's flagship carrier, Emirates, expects particularly busy departure periods from July 3 to 5. The airline has advised passengers to plan ahead and allow extra time for traffic, check-in, immigration, security checks, and reaching boarding gates.

Passengers are advised to arrive at the airport three hours before departure, complete immigration at least 90 minutes before their flight, and be at the boarding gate one hour before take-off.
